

THE WORKERS' PARTY

SOCIALIST - REPUBLICAN - ANTI-SECTARIAN

December 2nd, 2023

Dear Ambassador,

We send our warmest greetings and fraternal regards to the Cuban people as you celebrate the Day of the Cuban Armed Forces.

The landing of the Granma on the 2nd of December, 1956 initiated the final phase of the struggle of the Cuban people for independence and sovereignty from United States imperialism, culminating in the overthrow of the reactionary puppet regime of Fulgencio Batista. Since then, Cuba has been a beacon for other socialist parties across the globe.

With the leadership and guidance of the Communist Party of Cuba the Cuban people have overcome many challenges to their independent development. In spite of a blockade of over sixty years imposed by the United States imperialists the Cuban people have not wavered from the road of patriotism, internationalism, independence and socialist development.

Our Parties hold these goals in common and we continue to draw inspiration from the achievements and resolve of the Cuban people.

In solidarity,
Alan Kidney
International Director
Workers Party of Ireland
