Solidarity with the struggle of the Sudanese people and their communist party

The Communist Party of Belgium supports and salutes the heroic struggle and resistance of the Sudanese people who, for several months and the coup d'état of 25 October, have been carrying out mass demonstrations in the streets to oppose the return of the loyalists of the dictatorial regime of Omar Al Bashir, who were ousted from power in 2019.

On 2\textsuperscript{nd} of January, a first victory was achieved: the resignation of Prime Minister Hamdok, who was ousted by General Al Buhran's coup d'etat and accepted to return to his post to serve as a cover for the junta.

We express our full solidarity with the Sudanese people who are struggling at home and those who are forced into exile and continue the struggle from Belgium, as well as with the Communist Party of Sudan which is faithful to its people and to the conquests of the 2019 Revolution.

We will continue to stand with them in their struggle for the freedom of all political prisoners, the liberation of the Sudanese people from the oppression and repression of the junta that came to power to serve imperialist interests and appetites in the region.

Tasgut bass.
