## STATEMENT OF THE COMMUNIST PARTY OF BANGLADESH CPB Denounces U.S. Military Aggression and Stands with the People of Venezuela

The Communist Party of Bangladesh (CPB) strongly condemns the military aggression carried out by the United States against the Bolivarian Republic of Venezuela.

The CPB denounces the massive missile and air attacks reportedly launched by the United States on Caracas, Miranda, Aragua, and La Guairá. The Party also strongly condemns the unlawful attempt by U.S. military forces to abduct the democratically elected President of Venezuela, Nicolás Maduro, along with his wife. Such actions represent a dangerous escalation of imperialist aggression and a blatant violation of international law.

The air and missile attacks carried out under the pretext of intervention, aimed at controlling Venezuela's vast oil resources, are a clear manifestation of the lawlessness and arrogance of U.S. imperialism. Having failed to achieve its objectives through threats, sanctions, and blackmail, the U.S. administration has once again resorted to brute military force. This aggression is a direct assault on the free will and political choices of the Venezuelan people as well as the peoples of Latin America, and is entirely illegitimate in historical, political, and social terms.

The Communist Party of Bangladesh reaffirms its unwavering solidarity with the people of Venezuela, who have long resisted imperialist domination and defended their national sovereignty with courage and determination. The Party firmly believes that the future of Venezuela will be determined not by imperialist aggression, but by the struggle of its people for independence, democracy, and social justice.

The CPB calls upon all progressive, democratic, and anti-imperialist forces around the world to raise their voices against U.S. imperialism and to stand in solidarity with the people of Venezuela and Latin America.

Down with U.S. imperialism!

Long live international solidarity!
