CPSL Condemns U.S.–Israeli Aggression Against Iran

The Communist Party of Sri Lanka (CPSL) strongly and unequivocally condemns the heinous crime committed by United States and Israel by killing the Supreme Leader of Iran Ayatollah Ali Khamenei and the latest acts of military aggression carried out illegally by the United States of America and Israel against the Islamic Republic of Iran. These attacks represent a grave violation of international law, an assault on the sovereignty of a United Nations member state, and a reckless escalation that threatens to plunge the entire Middle East into a wider and uncontrollable conflict, which may escalate into a World War.

The CPSL notes with deep concern that the United States of America, acting in concert with Israel, continues to pursue a policy of militarised domination in West Asia. These actions are not isolated incidents, but part of a long-standing pattern of destabilisation, regime-change operations, and unilateral use of force designed to secure geopolitical and economic interests at the expense of the peoples of the region. The latest strikes against Iran are yet another manifestation of this imperialist agenda.

We further condemn Israel's role in provoking and intensifying regional tensions through its ongoing occupation, its repeated violations of international humanitarian law, and its continued military operations beyond its borders. The coordinated U.S.–Israeli attack on Iran is inseparable from the broader strategy of suppressing resistance to their hegemony and silencing states that refuse to submit to Western diktat.

The CPSL stands firmly with the Iranian people and all peoples of the Middle East who have endured decades of war, sanctions, blockades, and foreign interference. We reiterate that peace in the region cannot be achieved through bombs, assassinations, or coercion, but only through respect for sovereignty, adherence to international law, and the right of nations to determine their own political and economic paths free from external pressure.

We call upon the international community, especially the Non-Aligned Movement and progressive forces worldwide, to oppose this dangerous escalation and to demand an immediate end to U.S.–Israeli military operations. Sri Lanka, with its long tradition of non-alignment, must not remain silent in the face of such blatant aggression.

The CPSL reaffirms its solidarity with Iran and all nations resisting imperialist intervention. We call upon the Government of Sri Lanka to condemn this aggression and to urge the global community to work towards de-escalation, dialogue, and a just and lasting peace in the Middle East.

Dr. G Weerasinghe
General Secretary
